WORK EXPERIENCE

FULL STACK SOFTWARE DEVELOPER, SANTEX PVT LIMITED

23/02/2025 – Present
KARACHI, PAKISTAN

- Build full-stack Shopify applications using Remix (loaders, actions, nested routes) and Next.js (App Router, SSR/SSG, API routes).
- Develop secure Node.js REST APIs with standardized authentication, input validation, and centralized error handling.
- Create responsive UIs in React and Next.js using hooks and Context API, with a strong focus on accessibility.
- Deliver cross-platform features in React Native, integrating REST and GraphQL backends.
- Integrate third-party services (payments, authentication, analytics), and implement webhooks with idempotent processing.

FULL STACK DEVELOPER(INTERN), COVENTECH

01/04/2024 –
25/07/2024

- Collaborated with project managers to define requirements, milestones, and technical deliverables.
- Designed and implemented scalable, fault-tolerant microservices architecture.
- Developed and shipped production web applications using Node.js, React, Next.js, JavaScript, and PostgreSQL.
- Integrated third-party APIs and services to enhance functionality and user experience.
- Modeled data and optimized database queries to improve performance, reliability, and maintainability.
